# LI JUNTING *Product Marketing / Operations*

JTINGLI@126.COM | +852 5956 1910 | Central, Hong Kong

## EDUCATION

**Master of Landscape Architecture** — *The University of Hong Kong* 09/2024 – 12/2026

- Relevant Coursework: Landscape Media, Sustainable Environment Design
- Cumulative GPA: 3.88 / 4.3

**Bachelor of Landscape Architecture** — *Sichuan Agricultural University* 09/2019 – 07/2024

- Relevant Coursework: Urban Governance and Design, Urban Green Space Planning, Climate Responsive Design

## PROFESSIONAL EXPERIENCE

**Patsnap** — *AI Agent Product Marketing* 07/2026 – Present
*Shanghai, China*

- **Built and maintained** a weekly competitive intelligence system tracking **8+ B2B SaaS competitors** across pricing, features, and channel strategy via LinkedIn, Twitter, competitor websites (Blog/News), and help docs; delivered **7 structured reports**, with **5 insights adopted** by product and sales teams for pricing and GTM adjustments.
- **Created** a sales enablement toolkit — a product One-Pager (HTML landing page), Sales Deck (PPT), and **8 FAQs with recommended sales scripts** covering billing changes, credit-sharing logic, and product positioning (Copilot vs. Encyclopedia); **adopted as standard collateral** for client meetings and demos.
- **Designed** a PLG user activation email workflow **(5 triggered emails)** covering the full path from signup to first value, including a targeted re-engagement flow for **"7-day inactive" users**; also maintained the lead-generation dashboard with daily tracking and channel performance analysis to surface funnel optimization opportunities.
- **Developed 4 customer success stories** structured by background, use case, and outcomes; **published on the official website** and used in sales outreach to accelerate prospect understanding.

**Loona Robotics (Beijing Keyitech)** — *Product Operations & Growth* 03/2026 – 07/2026
*Beijing, China*

- **AI Agent Optimization:** Led the testing, deployment, and iteration of in-product AI Agents, refining response logic and knowledge base content based on real user feedback. **Reduced manual ticket volume from 100 to 40 per day (60% decrease)**, achieving a **70% First Contact Resolution** rate.
- **Product Feedback & VOC:** Monitored daily app user behavior, community feedback, and VOC; analyzed high-frequency pain points and user needs. Produced **30+ FAQs, 5 product optimization proposals**, and knowledge base content that directly informed version roadmaps.
- **Growth Analytics:** Conducted daily Shopify funnel audits (traffic → browse → add-to-cart → purchase → conversion), correlating channel sources, ad performance, and user persona data to inform campaign budget allocation and product decisions.
- **Campaign Execution:** Co-designed a tiered rewards mechanism and gamification structure for the Father's Day x Basketball Kit campaign, coordinating with Product, Design, and Operations teams. **Drove 5–10% add-to-cart lift and 15% overall conversion uplift** through targeted EDM and social media coordination.
- **Cross-functional Collaboration:** Bridged Product, R&D, and Marketing to ensure rapid issue resolution, seamless campaign launches, and efficient product iteration.

**Land+Civilization Compositions** — *Brand Operations / Landscape Planning Intern* 05/2025 – 10/2025

- **Video & Media Production:** Produced promotional and informational videos (CapCut, Premiere Pro) to grow the design team's Instagram engagement, reinforcing branding for the Yau Ma Tei Urban Renewal Competition.
- **Curatorial & Writing:** Planned a small-scale urban design exhibition (theme, curation, layout, on-site coordination); contributed bilingual captions and project descriptions to the book URBAN HACKING.

## PROJECTS

**Father's Day x Basketball Kit — New Product Launch Campaign** 05/2026 – 07/2026

- **Campaign Strategy & Incentive Design:** Designed an interactive gamification structure and tiered rewards system (10%/20% OFF coupons, new accessory giveaways, and KOC-exclusive Petbot rewards) to balance participation, purchase conversion, and campaign costs.
- **Channel Execution & Promotion:** Coordinated campaign outreach across EDM and Instagram with phase-based social media content calendars; leveraged KOC-exclusive links and community sharing mechanisms to maximize visibility.
- **Performance Analytics & Iteration:** Analyzed user behavior funnels, conversion rates, and channel attribution via Shopify backend. **Drove 15% overall conversion uplift and 18% sales growth on Google channels** through optimized targeting and touchpoint strategies.

**P0 Feedback Insight Analyzer — AI-Powered VOC Intelligence System** — *Personal Project* 06/2026 – Present

- Built **an AI agent** that ingests multi-source user feedback (App Reviews, Tickets, Social Comments, KOC DMs) and auto-classifies each signal into **4 output categories**: FAQ Gaps, Knowledge Base Updates, Content Opportunities, and Product Optimization Signals.
- **Result:** Cut feedback-to-action decision time from hours to minutes. Core challenge: designing cross-functional classification logic that routes the same comment to different owners (Marketing / Ops / Product) based on intent.

## AWARDS

- **Milan Design Week China Collegiate Design Competition** — 1st Prize, National Level (2023) • **CHSLA Design Competition** — 2nd Prize, National Level (2023)
- **Cross-Strait Emerging Design Competition** — 2nd Prize, Regional Level (2020) • **Sichuan Agricultural University Merit Student**

## SKILLS & LANGUAGE

- **Marketing & Growth:** Shopify operations, user funnel & conversion analysis, campaign performance attribution, campaign management, EDM coordination
- **Data & Design:** Excel, SQL, Tableau, Python (basic); Figma, Photoshop, Illustrator, InDesign, Canva, PowerPoint • **Language:** English — IELTS 7.0 (Speaking 7.0)

## SOCIAL MEDIA & CONTENT CREATION

- **Douyin (TikTok) / Xiaohongshu Account Operations:** Created photo-based daily content on HKU MLA student life; **reached 25,000 views on a single video and 5,000 total likes.**
